3. EDCP Category 2 changes summary

The EDCP 470, 473, 474 and 475 were originally proposed by Don Krug as a part of a certificate program. When revisiting these courses, the term ICT (information communication technology) is relatively dated. The course titles are updated to Digital Media to reflect the current status of the field.

The grading limitation detail is being removed for the four courses as these courses are open to students across the campus. The removal of the grading details can enable flexibility for students to determine their desired grading.

There was additional discussion regarding the term *digital media*, as it may impact LLED. Discussion concluded with an agreement that digital media is a cross-disciplinary topic and each department is taking a different focus.
